COMMUNICATIONS GUIDE
to support CONNECTING PEOPLE TO PARKS: A Toolkit to Increase Safe and Equitable Access to Local Parks and Green Spaces
About the Communications Guide

This communications guide contains key messages and resources from the Oregon Health Authority toolkit, “Connecting People to Parks: A Toolkit to Increase Safe and Equitable Access to Local Parks and Green Spaces”, social media messages, as well as images and graphics to help you reach a variety of audiences who might benefit from this information.

A few examples of how you might use this guide include one or more of the following:
- A blog post highlighting your work
- Inclusion in a newsletter to colleagues and partners
- A media advisory or press release underlining your efforts in this area

The Communications Guide resources have been organized to assist you in two messaging areas: (1) promotion of the Connecting People to Parks: A Toolkit to Increase Safe and Equitable Access to Local Parks and Green Spaces toolkit and (2) promotion of your organization’s implementation of Safe Routes to Parks through the use of the toolkit.

Resources will be labeled with the following headings to assist you in effectively communicating your message.

Promoting the Resource

Promoting Your Work
Newsletter Copy

Newsletters are an essential communication tool in creating awareness, as subscribers are already invested in your message. Use the following sample copy in your newsletter or create your own copy using your agency’s messaging content.

Promoting the Resource

Everyone deserves safe and easy access to parks, but not all people and neighborhoods have that opportunity. With generous support from the Oregon Health Authority, the Safe Routes Partnership has created, Connecting People to Parks: A Toolkit to Increase Safe and Equitable Access to Local Parks and Green Spaces. This toolkit was developed using the Safe Routes to Parks Action Framework to guide advocates and agency staff as they learn how to thoughtfully engage their community, assess barriers to safe and equitable park access, identify goals and take meaningful action steps, and consider how to sustain their ongoing Safe Routes to Parks efforts. The toolkit focuses on access to parks via active transportation as well as ensuring a high-quality, safe experience within the park itself. Explore the resources at: https://bit.ly/3meXg3q.

Are you interested in learning more about how to increase and improve access to parks in your community? Could you use an extra set of hands to make parks and green spaces safer, more equitable, and more accessible? With generous support from the Oregon Health Authority, Safe Routes Partnership is providing one-on-one coaching and support to improve park access to communities in Oregon - at no cost! Get individualized guidance and help to implement our new toolkit, “Connecting People to Parks: A Toolkit to Increase Safe and Equitable Access to Local Parks and Green Spaces.” For more information contact Becky Gilliam at becky@saferoutespartnership.org.

Promoting Your Work

[Community members/Organization]
Help Improve Local Park Access

[city/town, state], [date]—[Organization] has recently launched an initiative called [Name of Project] to increase safe and equitable access to parks and green spaces in [city/town/neighborhood]. Through this effort, we plan to [insert 1-2 sentences of project summary/goals.]

The park(s) we’ve selected to work on are: [Describe the park(s) you chose to work on and why you’ve decided to work on them.]

Parks provide a place for people to be active, spend time in nature, and connect with neighbors and friends. However, not everyone in our community has safe, easy access to parks and green or open spaces. Safe Routes to Parks aims to fix that by making it easier and safer for people to walk, bike, and roll to local parks. Our goal is that everyone in our community has safe and easy access to parks and green space and we are starting that work in the neighborhoods that need it most. Over the long term, with increased safety and accessibility, Safe Routes to Parks seeks to increase park usage and improve health for people of all ages, races, abilities, and income levels. [Call to action: i.e., if you’re interested in learning more about this project and/or want to get involved, contact x.]

[Insert a quote from city/town official or the leader of your organization about why city/town/your organization is excited to join the program and what they hope the action planning process will accomplish].

About [Your Organization]
[Insert a paragraph about your organization’s mission and link to website]
Social Media Copy

Social media can play a key role in creating awareness about safe and equitable park access. Adapt these social media messages to recruit new partners and build your supportive team, educate the public on how improved park access benefits the community, and generate interest in parks and recreation initiatives. Add your own link for people to learn more about your work.

Promoting the Resource

Public Health:

• Safe Routes to Parks can save money while improving mental and physical health. Oregon benefitted from $1.4 billion in health care savings in 2018 (3.6% of state healthcare costs) from outdoor physical activity! Learn more about Safe Routes to Parks at https://bit.ly/3meXg3q. *Suggested Graphic - Image #4*

Reducing Barriers/Advancing Equity:

• Reduce barriers to park access and help diversify and reimagine your local park’s use for people of all races, genders, ages, income levels, & abilities! Safe Routes to Parks = equitable outcomes. Learn more about Safe Routes to Parks at https://bit.ly/3meXg3q. *Suggested Graphic - Image #1*

Inclusivity:

• People of all ages and abilities should have Safe Routes to Parks, right? Improving sidewalks, bike paths, safe crossings, & low speeds on surrounding streets make parks more inclusive for all. Learn more about Safe Routes to Parks at https://bit.ly/3meXg3q. *Suggested Graphic - Image #2*

Transportation Planning and Safety:

• Does your community have a 10-minute walking goal? Safe Routes to Parks efforts help communities reach these goals by reducing distance & barriers between where people live and recreate. Learn more about Safe Routes to Parks at https://bit.ly/3meXg3q. *Suggested Graphic - Image #3*

Environment:

• DYK Safe Routes to Parks planning often involves creating more green spaces and infrastructure in and around parks? More green spaces = greater physical mental health outcomes. Win win! Learn more about Safe Routes to Parks at https://bit.ly/3meXg3q. *Suggested Graphic - Image #5*

Walk With Ease:

• Parks and recreation agencies can support the overall health and wellbeing of older adults by making their facilities and programming more accessible via Safe Routes to Parks. Learn more about Safe Routes to Parks at https://bit.ly/3meXg3q. *Suggested Graphic - Image #6*

Want help improving park access in your community?
Are you interested in learning more about how to increase and improve access to parks in your community? Could you use an extra set of hands to make parks and green spaces safer, more equitable, and more accessible? With generous support from the Oregon Health Authority, Safe Routes Partnership is providing one-on-one coaching and support to improve park access to communities in Oregon - at no cost! Get individualized guidance and help to implement our new toolkit, “Connecting People to Parks: A Toolkit to Increase Safe and Equitable Access to Local Parks and Green Spaces.”

If you are looking to increase organizational capacity to improve access to parks and improve opportunities for walking, biking, and transit access to parks for everyone, please take advantage of this opportunity! Over the past four years, we’ve worked with a variety of Oregon communities to make an impact with Safe Routes to Parks. Here are some ways we can help in your community:

• Integrating Safe Routes to Parks with existing plans and policies
• Exploring creative partnerships to advance Safe Routes to Parks and achieve shared goals
• Identifying funding opportunities to advance Safe Routes to Parks in your community
• Collecting and sharing data to make changes for safer, more equitable park access

Why Safe Routes to Parks?
Parks provide a place for people to be active, spend time in nature, and connect with neighbors and friends. However, not everyone in our community has safe, easy access to parks and green or open spaces. Safe Routes to Parks aims to fix that by making it easier and safer for people to walk, bike, and roll to local parks. Our goal is that everyone in our community has safe and easy access to parks and green space and we are starting that work in the neighborhoods that need it most. Over the long term, with increased safety and accessibility, Safe Routes to Parks seeks to increase park usage and improve health for people of all ages, races, abilities, and income levels.

New Oregon-Specific Toolkit!
Connecting People to Parks: A Toolkit to Increase Safe and Equitable Access to Local Parks and Green Spaces

This toolkit, developed specifically for Oregon communities, includes step-by-step guidance through the Safe Routes to Parks framework to increase safe and equitable access to parks and green spaces. It focuses on access to parks via active transportation as well as ensuring a high-quality, safe experience within the park itself. As you work through this toolkit, you can expect to learn how to thoughtfully engage your community, assess barriers to safe and equitable park access, identify goals and take meaningful action steps, and consider how to sustain your ongoing Safe Routes to Parks efforts.

To explore the toolkit, visit: https://saferoutespartnership.org/resources/toolkit/connecting-people-parks

Support for this toolkit was provided by Oregon Health Authority with funding from Centers for Disease Control and Prevention.
